

Fodder and sugar beets

SF LIFTA™

Medium - high DM% fodder beet

SF LIFTA™ is the latest in medium-high dry matter harvestable fodder beet. Selected from Seed Force's comprehensive fodder beet development programme, it offers excellent in-field performance. SF LIFTA™ offers unsurpassed leaf quality and is very tolerant to leaf diseases particularly mildew and rust which can be prevalent in New Zealand conditions. Ideal for grazing and/or mechanical harvesting producing significant yields.

Agronomic features:

- > Versatile fodder beet for grazing and/or harvesting
- > Medium-high dry matter type 17-19%
- > Unsurpassed leaf quality
- > Very tolerant to leaf diseases
- > Genetic monogerm hybrid

Feed available

Substantial yields of high quality grazable or harvestable beets.

Stock suitability

Older animals when grazed in-situ. All types when lifted and fed.

Sowing rate for grazing

Precision sowing equipment
80,000-100,000
seeds per ha.

Sowing rate for harvesting

Precision sowing equipment
100,000-120,000
seeds per ha.
