

SF Inka

giant kale.

Agronomic Features:

- Very high yielding giant kale
- Use where yield is the paramount requirement
- A tall variety with medium leaf to stem ratio
- Ideal for winter maintenance of large animals

SF Inka is a newly released giant kale that has been developed for the dairy grazier. SF Inka offers very high yields of kale for maintenance of adult cows through the winter months.

SF Inka delivers high yields consistently, and is well adapted to the colder climates of New Zealand.

Stock Suitability:

Cattle.

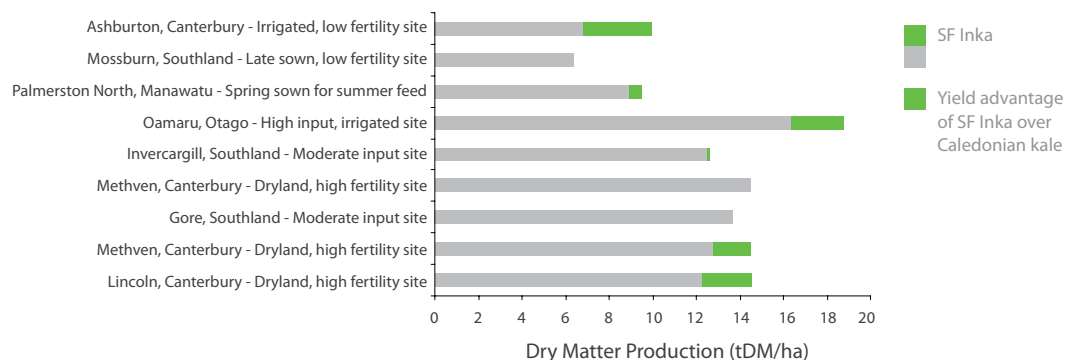

Seasonal Growth:

Sown late spring for winter grazing.

Sowing Rate:

4.0 – 5.0 kg/ha.

Dry Matter Production (tDM/ha) of SF Inka Kale in cultivar evaluation trials (2008-2011) and the yield advantage of SF Inka over Caledonian Kale

Note : In trials where there is no green bar, there was no measured yield advantage to SF Inka
